im looking for 10 people to a weight loss challenge and win a free gift for 90 days about \$23 a month! I myself was curious to like many products i have tried i thought this is not gunna work but for buy one get one i thought if it didnt work could sell them and atleast get my money back. I tried it wrapped myself and next day i was an inch smaller in all three spots i measured. Second time i wrapped two more inches off each spot. I lost three inches in all three spots. In just two wraps thats it i know amazing i was shocked. Not only did i see a difference so did my husband and other family and friends in 6 days i was able to take three inches off my waist and hip like area. So i decided i wanted to help sell the products.. Itworks has way more products to help with weight loss cellulite toning hair growth and more..... I personally can say the wraps work! If you would like to try one i got some for \$25 a wrap or go to ashwettels.myitworks.com and see what they got if you become a loyal customer you dont gotta pay any fees and get products for my price! I got 6 wraps on hand so hurry before they are gone :) the pixture is of my results and why i decided to sell id like to help!
