My old Passat got rear ended and totaled so I bought this one non running only to have the engine installed and find electrical problems. It has a vr6 with only 100 k on it new timing chain and water pump . I have a bunch of receipts for stuff I bought to get this one running. The body is nice, 5. Speed tranny and clean leather seats . The engine runs but the car does not. I'm asking \$700 for it but I've got more into it than that.
