I have a very nice aquarium with everything you need. It's got plenty of rocks and 6 bigger rocks. It has an aqua tech 10-15 filter. It also had a bubbler that I have used for 2 weeks. It's a very nice bubbler and 2 air stones can be ran at one time. Comes with 6 plants. And one nice aquarium fake tree with plants growing off it. I bought it 2 weeks ago for 25\$. It also had a nice lid with a light and 2 replacement bulbs. The aquarium does come with the aqua tech filter and an extra filter. Comes with all chemicals to treat tank and such. Asking 40\$ call Austin at 701-fourfoursix.
