I am re-homing two female Havanese puppies. Please do research on this breed if you already have not. They are sisters so I would like them to go to the same home and not separate them. This is a very good breed. They have hair, not fur so they are good for people with allergies. They don't do well being left alone for long periods of time so an ideal match would be a retired person, a stay at home parent with children older than 9, a couple that works opposite shifts, someone that works from home, or works part -time. They are dewormed and have had their first set of shots. They are 10 weeks old. There is a 600.00 re-homing fee for the two of them together. Serious inquires only.
