Location **Oklahoma**

I have a drainage problem on a house that we have already done some work on. I need to haul away existing piles of dirt, some concrete, some gravel. I have found some spots to take this, but I really don't care what you do with it or where you take it if you want to take it for yourself. The dirt is good brown dirt. It is just not 100% separated from some pieces of concrete..

The job requires a bobcat type of machine to dig down about 1.5 feet in the back.

In all you need a dump trailer and a Bobcat/similar type of tractor and we want to get this done TMRW!!!

Call me to bid this TODAY!!! (contract \$ job)

Thanks,
