I am a contractor and looking for a good and reasonable CREW to hang sheetrock. Must be a crew of at least 2 that work together on a regular basis. I AM NOT HIRING INDIVIDUALS, nor is this a full-time job. Work will vary, as is usual in the industry. This is a contract job and all work will be bid and agreed upon in writing with time commitments. NO CONTRACTORS (If you are not part of the crew installing don't waste your time). As a contractor I expect quality work at wholesale prices. If you are used to bidding jobs at retail price for the end consumer that is not me. I am like Walmart, I need good work at good prices and I can have a some-what steady flow of work for you over the years if you "do what you say and say what you mean".

MUST HAVE ALL TOOLS

For consideration, respond to the ad by Email, change the subject line to HOME Sheetrock. Also provide 2 recent references of builders, contractors or other recent customers.

Thanks! Lets make some money!~
