Update: 1 black and tan male puppy has a deposit
1 black and tan female has a deposit
so 5 puppies still available to choose from, hurry before they are all gone.

I have 7 gorgeous full blooded German Shepherd healthy puppies that were born 4/23/15 (1 week old).

Puppies will not be ready to leave their mother until they are at least 8 weeks old (6/17/15).
4 females and 3 males.
5 Black and tan 2 white

Both parents are on site

No I don't have papers for any of them. Come see them for yourself and you will know they are pure breed German Shepherds.

Dad weighs 112lbs (black and tan).
Mom weighs 85lbs (white).
So puppies will be big.

Very smart,protective, and loyal to me and my kids. I will give the puppies their 1st set of shots and dewormer myself, before they go to their new home. My dogs are good with kids and are house trained.

Don't put a deposit down for your puppy.
 Making \$500 firm, I will pay, to come to a good home.
