

# Seeking Mobile App Developer IOSAndroid (Atlanta, GA)

Location

Georgia

<https://www.genclassifieds.com/x-458773-z>

We are currently seeking an experienced IOS/Android Mobile App Developer to create a mobile application. The mobile application layout/design would be similar to Yelp and Foursquare. It must be able to track a user's location and allow the user access through their social media accounts. The details regarding the specific mobile application is confidential. We are looking to hire someone who can provide examples of mobile applications and former clients. This is not a project for someone who is just starting out! We are looking to hire someone in the month May. When responding to this post, please answer the following questions:

Where are you located?

Where can I find examples of mobile apps you have developed?

May I have a list of your past and current clients? (For references purposes only)

Devices: iPhone,
