

# Stop Settling for Sub

Location **Indiana**  
<https://www.genclassifieds.com/x-460017-z>

Hey there! I'm Jeremy, a freelance designer. I specialize in logo design & graphics.

Over the past 10+ years, I've used my knowledge of Graphic Design to assist clients worldwide bring their companies and ideas to life. When I'm not serving my clientele, I enjoy working on side projects. This helps me stay fresh at what I do and offers me brand new obstacles to experience.

## How I fell in love with Graphics

I began teaching myself ways to fabricate graphics in Jr. High. A handful of good friends and I were putting together a PC game that we wished to share with the world. What began as rough sketches became digital painting, graphic design, then website design. At that point, I was teaching myself everything that I could. Take a look at my website to view a few examples of my work - [www.graphixgod.com](http://www.graphixgod.com)

## Limited Time Special Offers

I provide my clientele with some of the finest deals you can come across on the internet. The cost doesn't reflect the calibre of the work that you will receive. These prices are limited time.

\$100 Logo Design - 3 Unique Samples, Unlimited Revisions & Redraws, 3 Day Turnaround, Vector Artwork

[illegible]

---

Do you complete rush orders?

I do, dependant upon your consent to a small rush fee and my current workload.

What is the ideal way to ask about a project?

To get in touch, simply send me an email. It's extremely fast, efficient, and I like having a written record of our conversation.

What programs do you use?

Like the majority of graphic designers, I use Adobe Creative Cloud (Illustrator & Photoshop).

Do you commute to meetings?

Alas, I am not able to commute to your area for work or meetings. Being an independent graphic designer, my customer base is not confined to localized projects. I've a tight agenda I must follow in order to meet deadlines.

Have you attended school for graphic design?

Most of my graphic design skills are self taught, through years of practice and experience.

Vector Artwork

---

You may well be asking yourself, "what the heck is vector?" When I design artwork for my customers, I create them with a vector editing program. These vector files can be extended to any size and will never lose quality. They do not become pixelated or blurry once you enlarge them.

Why should you use my services?

---

You can find a massive quantity of of graphic designers to choose from and lots of them are very good at their work. The real difference between these designers and myself? My style differs from the others, and my portfolio speaks for itself. If you like my work and the quality I provide, then I am the designer for you. Thank you for taking the time away from your busy day to read my ad, and I look forward to hearing from.
