

Child Care to Fit Your Schedule

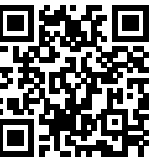

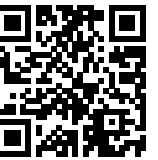

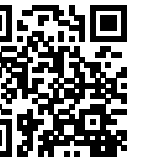

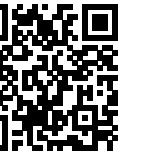

Location **Minnesota**
<https://www.genclassifieds.com/x-460138-z>

Have you ever considered hosting an au pair for your childcare? Au Pairs are experienced and educated child care providers that come to live with your family from another country. Au pairs can provide up to 45 hours of live in child care, including light housekeeping, children's laundry, meal preparation, transportation and much more. You also have the convenience of setting your own schedule and it can vary week to week. If you don't use all of your hours in a week, you could use it on a weekend for a date night out. It is extremely flexible. Au Pairs are a very affordable option to receive the dependable and one on one care, at just \$353/week regardless of the number of children you have (or \$300/week for 30 hours). Au Pairs are also a very dependable option for child care, as au pairs commit to a family for one year with the possibility of extending for a second year. You definitely get the one on one care you desire for your children. Having an au pair also saves you a lot of money on income taxes, as you are not paying on their wages due to them being here on a J-1 visa.

I have an awesome 18 year old South African au pair that wants to be in Minnesota as she has a friend already living in Maple Grove as an au pair. She is open to any area in the Twin Cities. Shannon can work with children of all ages including infants. Her hobbies are horse riding, painting, swimming and reading. She is very anxious to find a Minnesota family and start as soon as possible. Learn more about her: https://youtu.be/Gc_w6eel4NM

If you are interested in learning more about the program, you can visit: www.goaupair.com or call me the local area representative at I would love to talk with you further about the many benefits you would have
