Selling a iPhone 5 Black 16 Gb with a Defender Otterbox. Phone has a slight crack at the base of it but it doesn't affect performance and really is pretty unnoticeable (see close up picture). Phone never left the Otterbox during the year and a half I owned it. Comes with original box, unused headphones and original wall charger with cord (cord works intermittently). Battery does lose its charge quickly. Phone was with Sprint but is unlocked and owned outright. Serious buyers only and cash only.
