

2000 BMW R1100S (2700 USD)

Location **Arizona**
<https://www.genclassifieds.com/x-462597-z>

2000 BMW R1100s for sale. Runs well. Very similar to what was later the "boxer cup" model. Has an aftermarket titanium exhaust. Factory grip heaters. Is equipped with ABS but I get the flashing lights on startup, so I think the ABS modulator will need repair/replacement. This does not affect normal braking in any way.

Tires are in good shape. The rear only has about 1000 miles on it. I added braided stainless brake lines, center stand, and a lowering kit for the foot pegs.

Title is salvage due to a previous owner drop. The left hand valve cover has a few scuffs, presumably from this.

I had this up back in March as well, and had some people contact me via email, but apparently CL's mail relay did not send my replies through. So, if you saw this before, and responded, please accept my apology for not responding.

Contact Sean by text or phone at the contact info above. Text is preferred. I'm up at all sorts of hours so don't be surprised if I respond if you text late. If you want to email, please include a contact # so that I can respond in case the email doesn't go.
