These are handmade by my husband. We looked everywhere for these boxes and couldn't find them except for online and we didn't want to pay shipping. These were made to turn our dummy drawers in our bathroom vanity into real drawers. Then we decided to buy a whole new vanity so we have these left over, never been used. Turn your fake drawers into useful storage drawers!

To use just glue the face of your dummy drawer onto the front and mount the rails. We have all the rail mounting stuff. purchased new from Rockler woodworking.
