We miss & love her very much. We would like to get her back home asap!. I think she might have got into a neighbors(or friend/family member of a neighbors) car with out them knowing and got dropped off or transported to a different part of the neighborhood or completely out of our neighborhood. Talked to some neighbors but they say they haven't seen her. posted on straydar/lost cats of Arizona/people looking for lost pets/petharbor/nextdoor/pet key/helping lost pets & lost pets of phoenix....She might not
