Male, Neutered. White ferret with dark eyes and two black dots on his ear. Very friendly and social, loves attention and other animals. Enjoys digging, burrowing, and ear scratches. Needs special care daily.

He's a very good boy and we miss him so much. Our other ferret at home is so lonely without him. Please help us find him as soon as possible; I miss my fuzzy baby. :^(My heart aches without him.

Last seen May 25, 2015 near Rife Drive, Rogers AR.

Please let me know if you've seen him, think you saw him, or have any idea where he might be. I'd do anything to have him back. Keep your eyes open and spread the word; he means everything to me and the sooner I can get him home safe, the better.
