

Premium Gutter Covers Without The Premium Prices (1 USD)

Location **Kansas**
<https://www.genclassifieds.com/x-463794-z>

The only Gutter Protection that uses roofing granules to blend in with your roof line. It's no accident that asphalt shingles have granulated bits on their surface. Why? The roofing granules slow down the rainwater by friction and increased surface area. Water surface tension is greater under these conditions! This allows Gutter Roof to handle a larger volume of water. Check us out @ www.gutterroofkansascity.com
