nice GIANT leopard gecko

Location **Connecticut** https://www.genclassifieds.com/x-463872-z

Male one his current weight is 86 grams almost 10 inches long, only 8 month old; Male two his current weight is 83 grams 10.2 inches long, 8 month old also; Female one her current weight is 66 grams 9 inches long, only 7.5 month old. These geckos are unusually big for their age, I need to find them a new home, asking rehoming fee for 30 each, online they can easily be more expensive to get, all possibly can become super giant with 100 +!!!
