

Affordable prices 99 complete Air Duct Cleaning (Minneapolis)

Minnesota Location https://www.genclassifieds.com/x-464342-z

Air Duct Cleaning

Over a period of time Air Ducts can become contaminated with dust, building debris, animal dander, insects, rodents, dust mites, bacteria, mold, pollen, cigarette smoke, hydrocarbons, etc...

Does Your Air Duct System need Cleaning?

Look for black dust and dirt around your work area, on the top of the tables, cabinets, and especially on the return air grills. If you notice more than trace amounts, your air duct system most likely needs a thorough cleaning.
