Have an old laptop that you found/pulled out of storage and can't remember the password?

Perhaps you bought one from a CL Ad and didn't think to ask for, or write down the password for your newly acquired Windows computer...

Windows ONLY

Allow me to solve it for you in about 10 - 20 minutes for only \$25. Compare to other places and then E-Mail me.

BIOS Passwords are more difficult and not always a sure thing but feel free to e-mail me with specifics and I'll see if I can help. BIOS passwords usually run \$55 and up.

Thank You for Your Time.
