

Hobie Outback (1700, USD)

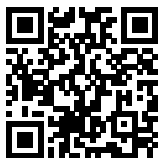

Location **Mississippi**
<https://www.genclassifieds.com/x-464607-z>

Haven t used it so figure would offer it up to someone who would. Hobie Outback, has many extras. Including Sailing rudder, new rudder lines installed, Turbo Finned pedal drive comes with it, along with a pedal driver repair kit. Has seal kit as well to keep extra water out while pedaling. All 3 compartments have storage containers in them. Extra rudder pins under the two hatches. Air comfort seat pad, original seat pad included. Has the lock in seat plugs and not the factory plastic ones that can pop out on you at the worst possible moment. Chute paddle. Have lanyards on both sides. One is attached to paddle, other you can attach to whatever you wish including fishing poles etc. Includes homemade cart as well. The yak with Turbo drive is \$1700.00

In pictures you see another drive system. It has the standard fins. Has seal kit to keep extra water out as well. I would use it when i was in creeks or rivers. It is for sale separately for \$350.

If you are reading this you know what the value is as it sits. Only thing this yak needs...is.
