Do you have a book inside you? Have others urged you to write a book about your life journey or something you're passionate about? Is writing a book a dream you carry around inside, one that won't leave you alone?

Writing a book is a creative journey with twists and turns along the way. To get from an idea or vision to a published book can be a daunting undertaking if one is unprepared. With some simple guidance and regular support, the way can be made both manageable and at times, even smooth.

The Book Dreamers Package helps you:

- ~Learn to access your Muse and write without effort
- ~Find and trust your unique voice
- ~Develop a creative habit
- ~Organize your creative time
- ~Determine the ideal creative space
- ~Set a deadline and break your project into manageable pieces
- ~Assist you with the overall theme, intention and objective of your book
- ~Overcome resistance, negative self-talk and obstacles that arise
- ~Gather resources for editing, proofreading, self-publishing or traditional publishing, support from other writers, etc.
- ~Plus more!

The bottom line is that you can make your dream a reality and you can start today! You no longer have to put it off for some vague tomorrow. Your dream is NOT going away, so why not see what it feels like to start making it happen.

In addition, I have a book about creativity under pressure with a special chapter that will be released this fall. You know about the process of getting a book to print and to publish.

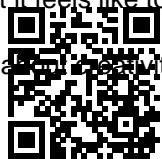

This package includes 12 sessions spread over a 6-month period. FREE 30 minute initial consultation! NEW! As part of the new gift economy, I'm now offering a "pay what you can" payment option. You can gift me with money, a partial barter, a gift, etc. Reply to this email or visit www.victoriafann.com to learn more. <http://www.victoriafann.com>
