Genre/cali style rock band looking for bass and drummer. We are a three piece at the moment with singer/rhythm guitar, and 2 lead guitarists.

All of us are in our early to mid 20s, very responsible and dedicated to rehearsing at least once a week. I have 30+ songs written myself and am just a well of ideas. Our goal is to start to get paid to play asap; i have been in multiple bands in california and previously had a residency where we all got paid to play original songs once a week.

Our ideal candidates have their own equipment, a reliable means of transportation, not a drug addict, and understands at least a little bit about music theory (notes, scales, major/minor, melodic phrasing). Also please be into bands like radiohead, the strokes, interpol, sublime, smashing pumpkins, franz ferdinand, slowdive, my bloody valentine, tool, red hot chili peppers, queens of the stone age, the libertines, the white stripes, etc.

If interested please email back with contact info and a demo of some sort (iyho). We practice at ser usually on Thursday nights.

Here is a soundcloud link to a couple of our songs, first indie rock, second reggae rock
