Spring is here along with the beautiful weather. However our cars have taken a lot of abuse this past winter. A quality detail will improve your car's appearance, making it look better than new, and also defend against UV fading and scratches. Most detail shops just put a cheap wax over the car that will only hide the imperfections for a month if you are lucky. I fix and remove these imperfections the right way, I don't just cover them up.

Starting at only \$99!

Exterior Services Offered:

- >Bug and tar removal.
- >Removal of road grit and sand imbedded in the paint of the vehicle leaving a rough texture that damages the finish every time it is touched.
- >First stage buffing with a high quality compound that removes scratches and repairs at the deepest level.
- >Second stage buffing will remove fine scratches and swirls in the paint.
- >Final polish and wax to bring out the full potential of your vehicles finish that seals and protects the paint for months to come.

Interior Services Offered:

- >Thorough vacuuming of the interior.
- >Cleaning and treating of the dash and trim leaving a nice finish that also protects from fading and cracking.
- >Removal of road salt and UV rays.

FREE **WAX** **SERVICE**

- >Wheel cleaning removing grease and harmful brake residue.
- >Interior cleaning of the windows.
- >Cleaning of door jambs.
