Hi there!

This awesome townhome is slightly north of downtown (walking distance). Right next to some restaurants, art studios, yoga studio, multiple gyms, bars, and much much more! Its a beautiful open layout with an island and bar, dining room, pantry and living room and balcony on the main floor. The bedroom is on the bottom floor that has its own private entrance, personal bathroom and attached garage!!! ALSO - panoramic rooftop with views of the mountains and downtown with a built in BBQ, sink and refrigerator! W/D in unit!

Two friends living together who work a lot, cook during the week, like to have BBQ's on the roof and explore what Colorado/Denver has on the weekends - amongst other things! We are looking for a third roommate who is clean/tidy, is down to earth and doesnt mind having people over once in a while.

Email me for more information and to come check out this AWESOME! :)
