As the title says.. I have a good set of Centerline Challenger wheels in 20" that have a 6x5.5 or 6x139mm bolt circle..will include the proper lugs nuts with a wheel lock set if the trade is going on another GM truck with the proper lug nut size that the 2001 tahoe is..They fit all 6 lug fullsize Chevy and GMC trucks and alot of mini trucks ( Mazda, Toyota, Nissan) that have the big 6 lug ..came off a 2001 Chevy Tahoe and know they will fit the Silverados from 88 to Current along with the tahoes, suburbans,avalanche,sierras and yukons from that vintage.. They are chrome and have some small pitting inside the holes of the wheels but they polish up beautiful and look great.. Looking to trade even (or maybe a couple extra dollars on my end, but not much) for the factory 5 spoke 20's that come on the 2005 ish and up tahoes and avalanches along with alot of other GM fullsize products.. Will entertain trades of other factory 20's as well..they are on my Wifes truck and she likes the look of the factory five spokes instead of these.. Don't need tires and i have a small auto shop with a tire machine and balancer so if you'd like to trade i could dismount and mount your tires on these wheels and professionally install them back on your truck.. Pretty much boils down to if she likes them..im posting a picture of the ones she wants definitely but if what you have is different email me a picture and we'll go from there... Thanks for.
