For sale is my 07 CBR1000RR and title is in hand. It has been hardly ridden and has less than 18,000 miles. The bike is a custom charcoal grey by Shade Tree Bodyworks in Henderson, TN. I got a box of parts when I purchased the bike two years ago that have yet to be installed. Included are power commander III, header, alarm system, bike stands (to do your own work) and a NOS brand nitrous system. I have never had any interest in racing the bike, just took the parts. It had a tune up 400 miles ago by Barton Powersports in West Memphis. I can be reached at 731-803-1836 and am able to send more pictures of the bike. Title in hand - \$2000 and will not consider trades!
