I am looking for a polite, friendly yard helper to assist me in finishing yard to do list. The kids are home for the summer, and we are spending lots of time in the yard. Currently all I see when I am out there is all the things that I need to get done. I would love my time at home much better if the yard was inviting me to come play and relax instead of to come and work.

I need someone who can do a little skilled work but mostly lots of little jobs. I need help to:

- Scoop poop
- WEED!!
- plant some plants
- spread some mulch
- WEED!!
- spread fertilizer
- prune
- pick up twigs and limbs
- use the pressure washer to clean up the patio and the patio furniture
- WEED!!
- season clean up

If you think this is a good fit for you, please send me an email detailing your experience working in the garden. I would prefer working during a week day. I want to make sure it is a good fit with your skills and my expectations. I think a four-hour session might be about right to start/audition. If our first day goes well, we can attack the whole list. We can tackle the list in a big spring cleaning blow out or can take a day a week. Whichever works for you.
