Looking to rehome my Chameleon, he's been a good pet but I need to downsize on my reptiles, he's comes with everything you need to take care of him. Reptile fogger and monsoon misting system have a warranty through petsmart. Has a double dome heat fixture with uva and UVB. He eats crickets, roaches, worms ect. His cage Is 4x2x2 all screen with a soft tray at the bottom. Comes with a timer outlet as well. Asking a \$200 rehome fee, have triple that into him and his things. He's a good size chameleon (bigger than most I've seen).

He'll come with everything I have for him.
