Hi I'm Sonya, a freelance commercial photographer looking for an intern/assistant for occasional help on big shoots. (Could be for the summer or on-going.) The shoots would mostly be restaurants and food related ventures. Sometimes a corporate shoot, headshots etc. You don't need to be a photographer, but a good eye for arranging spaces and willingness to help transport and set up equipment is ideal. Need someone professional, friendly and on-time! If we live close enough I can give rides to shoots, your own transportation is helpful though not required.

Let me know what your interests and relevant skills are, mostly need a personality that fits! Would love a free intern, but appreciate your time and could provide a small stipend per.
