

Freelance Joomla Web Developer (Work from Home)

Location **Massachusetts**
<https://www.genclassifieds.com/x-501332-z>

We are looking for a proven and reliable Joomla developer/programmer for ongoing work on our entertainment and networking site. In the long term we are looking for someone to handle ongoing support issues and development. In the short term, we have a list of some bugs that need to be squashed. (More details to be discussed).

Good communication skills are a high priority for us. We'll need to interact closely on some of these issues to be sure the functionality behaves as intended. We plan to roll out a number of additional site enhancements over time, so we are looking for someone who we feel comfortable working with on an ongoing basis.

?Skills needed: Joomla!, JomSocial, JavaScript, PHP, MySQL
Please respond with resume and links to the work you've done.
