This is a great car. 1996 Honda Accord, not salvaged, 246,000 miles, 4-cyl. automatic, and it never breaks down. It has been very reliable over the last 4 years I've owned it. I've put in new exhaust (1/14), new tires (2/14), brake pads (3/14), front axle repaired (3/14), radiator repaired (12/14), starter replaced (10/14). Body isn't perfect, there are some dents and dings and back bumper is slightly cracked on the right side. Otherwise it's a great car!

It's white with tinted windows and new stereo/cd/aux/tuner system.

Asking \$1500.

Text me if you're seriously.
