Hello,

My name is Scott, and I provide affordable and professional year round yard maintenance services for the Twin Cities area. I'll climb, cut, chop, clean, clear, mow, weed, trim, rake, shovel, snow blow, and haul away anything to keep the outside of your home clean and safe. You'll find our rates average 30% less than the larger companies, and we have a very high customer retention rate. I'll provide customer references by request.

Well, we are starting to wrap up our spring clean-ups and heading into summer. But there is still plenty of time to have your garden beds cleaned up and re-mulched. A good weed & feed can begin the process of fixing up your lawn. Tree branches dead or in the way; we will cut them down. Volunteer trees popping up along your fence; we will pull them out. Gutters not flowing; we will unplug them. Lawn grew too fast for your mower; we will trim it down. We also offer lawn maintenance but we prefer that you live within 5 miles of Saint Paul for regular scheduling.

Our prices vary depending on the job, and we will be happy to provide you with a free estimate to get us on our way. Please reply to this ad with any important information such as address, size of property, time constraints, etc. that may aide in my computing an accurate estimate. Just simply click on the "reply" button in this ad, you will be directed to my Gmail account which I check regularly.

Thank you,  
 Scott
