I have been shooting pictures as a hobby for many years and to be honest scenery is getting rather boring. I am looking for young ladies between 18 and 35 who are fit, uninhibited, playful and fun to do shooting safaries from time to time. I don't publish anything, don't use the pictures for anything, its the creative process I enjoy and its just a way of getting out and having fun.

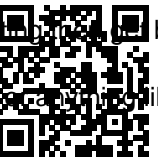

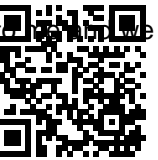

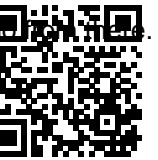

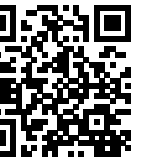

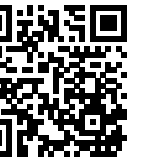

It would be nice if you were someone who has independent ideas about things that would allow you to be a contributing factor to what we do. More of a partner invested in the outcome then a prop to pose. For me, it being a hobby, chemistry is very important as well. Having someone who you enjoy spending time with, can develop a connection on a creative level, and have regular shoots would be the ideal situation. In short it has to be fun or its just another job.

I am not looking for girls who want to pose on the beach in their bikini's, thats sort of been done a mil times, I'm looking for more of the unusual, out of the ordinary, natural beauty combined with erotica, fetish stuff, what ever comes to mind. Someone who truly enjoys the natural outdoor beauty au natural and is willing to capture those singular moments when the combination of the setting, the model, the photographer, and the situation come together to create that perfect picture.

I also am not looking for any drama, so if you have a boyfriend thats great but leave him on the couch watching the game. Im an adult, I would assume you are as well. We can meet for coffee and go through what ever process you would like to feel comfortable, and if you decide you want to proceed then lets do so as adults.

I am willing to pay a reasonable fee to the right person but to be clear, if you are only wanting to do this for the money then it just not the same.. Normally we would be talking about 3 to 4 times a month or as the ideas come and the weather is good.

I also travel quite a bit and if you were the perfect person, we click, and can stand be around each other for more then a couple hours, its a real possibility that we could do shoot in those locations. My expense of course
