Great opportunity for the right person who wants to work into the traditional workforce. Or maybe you need a job to help build your credit and work history in entertainment promotions. No experience needed, as I will train you if you have the right attitude and mindset.

I have an opportunity for a female dancer/model type who is able to make phone calls and set appointments for my business. Office work, answering phone calls, explaining the position, taking photos, screening clients are all part of this job.

Ideal candidate would also be available to be a live-in business partner and open to additional job responsibilities. My business is growing and this could be a very rewarding opportunity, long term, committed position if you are honest and naturally reliable!

Must be attractive, open minded and willing to put in the extra effort. This is a full time position and the hours can be adapted to your schedule. Best hours are mid day during the week and weekends.

Compensation is a 50/50 split. All of the money from the business will go into a trust fund (checking account) with no hold backs. Please include a little about yourself, recent photos and contact information to be.
