Roswheel Bicycle Frame Top Tube Cell Phone Bag - new, never used. Was given as a gift but does not fit my current mountain bike frame which has a very thick top tube. Mounts to the top tube with two Velcro straps and also attaches to the head tube with an additional strap giving you easy access to your phone. Padded case with clear top which allows access to touch screen. Also has headphone cord port and plenty of room for keys and snacks.

I am located near the Oviedo Mall off of Red Bug Lake Road near the 417. Reply with a phone number if you are interested. Please don't email just to ask if item is still available. As long as the ad is up on CL, it is still available. Cash and local pickup only.!
