Konig 1000 wheels (Bought brand new last year)
Hertz3 rear tires with good tread
Front tires with good tread
Full black interior
Rear seat delete
Kenwood touch screen head unit
Issues
Rust spot on drivers rear quarter ~2" long
Exhaust leak causing idle issues when warmed up

Leaks oil when parked

The car does have a few small problems but is clean otherwise and Ive only used high quality aftermarket parts. Once again I dont need to sell it just seeing if I get any offers. It has not been driven in the winter for the 8 years Ive owned it and there is no rust other than what was mentioned above. Looking for \$5500
