Alright this is going to be really hard for me... But I have to get rid of my best friend. His name is Diablo or D for short. He will be 7 November 23 this year. My mother is fresh out of the hospital and had along stint in a rehab center and she has sever breathing problems. I will be very picky on who will get this dog. He would do very well in a home with a older couple that spend a lot of time at home. He doesn't do well with being left at home alone so he would have to travel where ever you would go. I know that might seem like a pain but just how it is. Thats why I'm saying an older couple that don't work that live in the country would be perfect. He's never been chained in his life... So I don't want that to start now. And lam going to put a 250 \$ price on him because quite frankly I hope this will take a little while to go through. He is very good with children and most dogs as long as its not an un fixed
