This is a very lightly used backpack that has great back support with the thick padding. There are no stains, rips or tears on this backpack since I am a bag lover and take very good care of all of my bags.

The Broadmore Backpack from Brenthaven is designed to hold most laptops up to 15.4" and an 11.75" or similar sized tablet. The laptop and tablet are held in separate padded compartments. The laptop compartment has six-sided protection of 1.5" of high-density foam and a security tab that holds it in place.

The pack is checkpoint-friendly. It unzips in the middle, butterfly-style, for rapid inspection so you can exit security checkpoints without having to open the entire pack. The front has four zippered organizer pockets. Two are vertical and the other two are horizontally oriented. The smaller vertical pockets are sized for your phone, tickets, ID or other small items. The pack is made from ballistic nylon with a polyurethane coating and is PVC-free (polyvinyl chloride). The laptop compartment frame is Plasticore to guard it from side and corner impact. The pack's exterior trim is Napa leather.

Portability is provided by adjustable backpack straps and a top grab handle. The pack's hardware has been tested to withstand 250 lb of pressure.

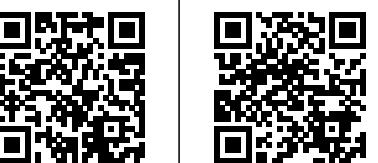

The bottle in the picture does NOT come with the backpack.
