

# Watson (, USD)

Location **Indiana**  
<https://www.genclassifieds.com/x-501936-z>

Watson was taken to a shelter in the winter, and they thought she was a boy. She then proceeded to have kittens, so they figured out that she was a girl!!!! She had already been named "Watson" so they just kept the name. She has that sweet, black cat personality. She totally deserves to have a home of her own. After all, her kittens have gotten a home, and now, it's her turn. She is playful, most likely being just under or just over a year old. She is good with other animals, and is very entertaining. She loves catnip toys and feathers on a pole. She is with a dog in her foster home, and she does just fine.

She has been tested for felv/fiv, spayed, and is up to date on shots.

She will be at the Carmel Petco on Saturday, May 30, but is available to be seen any time during the week. She is anxious to meet her new family.
