Dear Reader!

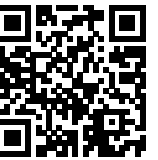

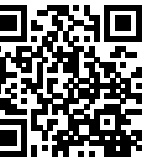

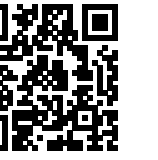

The situation arises in all our lives that will require us to go somewhere. Either a deep desire for a walk alone in a Park, a nice quiet dinner in a restaurant or a simple trip to the supermarket. But children require constant attention and it may be difficult for you to get away due to constant worry that if you take your eyes off of them for a brief moment, they will break something valuable or worse yet put something in their mouth that can harm them. So you often find it difficult to focus on what you need to buy in a store or you can't go to a restaurant or Park and take a short break from the shouts and all the noise.

My mother often complains that we scream, yell and run around the house. Therefore, adults occasionally need to go and relax. But what can you do? You can't leave the child home alone. You need to find someone who will look after the child while you are not at home. So I suggest a good, trustworthy and responsible babysitter.

Now I should tell you a little bit about myself, because you can't trust the welfare of your child to just anyone. My name is Mary and I live in Kelly Creek Subdivision. I'm almost 14 years old and I love spending my time with children and babies. I am very active and love outdoor games so your child will not get bored.

I have 6 years experience watching younger children. I was often left to look after my brother with my grandmother. She is not as young as she used to be and oftentimes found it difficult to keep track of everything that my naughty little brother did, so I had to often come to her aid and entertain my brother with fun games so that he would not break anything or injure himself.

I promise that your child will be played, fed and will have a good, cheerful mood upon your return. Please contact me at if you find the need to escape. The times I am available to babysit your dear child during school days is between 5 p.m. to 9 p.m. Weekends are summer season are very flexible. If you want me to be your babysitter, we can discuss the price during our initial meeting, and I can give you my address if you will need it. Goodbye and have a good day.
