I am a professional logo designer with over five years of experience. I can create a unique & powerful logo to your liking. I can design in varying styles from business classic, modern, formal, 3D, futuristic, eye-catching & creative, vintage retro, humorous, ultra clean, cartoonish, bright & colorful, etc. I can also situate your logo on many choices of amazing backgrounds. Please look over some of the some samples in this posting. Simply do your best to express what you like and what you want, and I'll do the rest!

When your logo is completed to your likinh, I will provide source files to your logo in any file formats you need (vector, jpg, png, psd, eps, pdf, etc.). I also offer multiple revisions until you are satisfied. The first two revisions are at no additional cost. And if needed, I can place your project in priority, performing the same high quality work extra speedily (for just a small additional cost).

Please send me some specific details of your desires and requirements. Then we can discuss your ideas. I will then send a quote. I am considered "extremely reasonable" in price for the excellent professional quality work you will receive. I can offer three general packages, Bronze, Silver, and Gold. These packages can also be customized as needed. Please inquire by replying to this posting.

Finally, in this introduction to my services, I will also mention that I can complete any other kind of graphic design work per your needs such as full beautiful and professional websites, attractive landing pages, advertisement banners, headers, posters, signs, ebook and book covers, product line packaging, business cards, stickers, t-shirts and clothing, and more.

How to use our samples: Please click on the sample you like to see more details and to be in touch with us, and if you would like to be in touch with us, please click on the sample you like to be in touch with us.
