

I need my car ac fixed asap (baltimore)

Location **Maryland**
<https://www.genclassifieds.com/x-502125-z>

I had added some freon a bout a month ago and a couple days later it was hot again, so i went back they said i might have a leak,

i bought some red devil ac stop leak today and added it in and the ac cluth starting doing this in the video below, i guess it was moving at all before, and now it wont stop. and i still have hot air whats the problem
