

# University of Maine dorm and neighborhood guides (University of Maine)

Location

Maine

<https://www.genclassifieds.com/x-502179-z>

There are two writing assignments. First, we're looking for a few sentence descriptions on the areas around campus. Specifically, things like where is good for grad students, more rowdy, etc. And then markers placed on a map for reference.

Then there are descriptions of the dorms. Things that students would actually want to know before living there, such as the benefits of the area and what dining halls nearby are like. This should be from the perspective of a current or former student preferably.

The pay is \$15 for each project (so \$30 for both). They'll be casual and informal writing, and hopefully a bit fun. Both sets of information will be used to create a guides for students! Feel free to reach out with any questions.

Must be a current student or recent graduate, please.
