

Chicken Coop (280 USD)

Location **Minnesota**
<https://www.genclassifieds.com/x-502229-z>

Chicken coop for sale. 3' wide X 5' long x 5' high. We built a larger coop so are selling this one. We kept 4 hens in this coop. The top area has the roost bars and the nest box (not shown) and is accessible by lifting the hinged roof. This design is very easy to access the coop for cleaning. The bottom area has hooks for hanging food and water and is 24" tall. The bottom area is accessible by removing the two wire mesh doors. There is not lighting needed for this coop as the roof is clear. The coop works great we just don't need it any more. One of the clear roof panels has a crack in it. for this past year I just had clear tape over the crack. We could talk about me replacing ur cracked panel for you. We have used this coop for 3 years now and have enjoyed it. Please call with questions but you can text or email too. For now I'm pretty firm on.
