

Help set up amp test an audio mixer (Eagle)

Location

Idaho

<https://www.genclassifieds.com/x-502368-z>

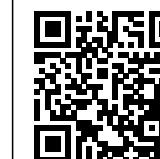

I need some help in setting up a large Digico Audio Mixer. We are just going to connect the components, dust them off, turn it on, and then pack them back in the crates. This should take between 2 and 4 hours total. You should have some experience in setting up, and using some type of large audio mixer. Although it's not necessary to have worked with the Digico brand before. This will be done probably either Saturday, or Sunday, June 13th, or 14th.

I will pay \$20 per hour.
