For sale is my 2006 Chrysler 300C 5.7L with the Hemi. It is loaded power everything, navigation system, power sunroof, it also has chrome inside and out with wood grain on the inside also. I just had the front end all tuned up with new Big O tires all around. The navigation has a cracked screen ,but it still works with out the screen, and it needs a new oil sensor. These are minor fixes the car is clean inside and out a real head turner must see to appreciate There's to much to list thanks for looking.

P.S. Shown with 22" rims and tires they are not included with the car but may sell separate if the price is.
