

Adorable Kittens part Maine Coon or part Angora (Sullivan)

Location **Missouri**
<https://www.genclassifieds.com/x-502461-z>

4 very adorable and playful kittens and 1 mother cat for adoption to the best families. Kept indoors and use the litter box faithfully.

One mother is Dilute Tortie (grey and peach) and she is an Angora Cat with super soft bunny coat, and the father of her kittens is at least part Siamese; he was huge. The siamese looking kitten already got a home. She has a darling little female dilute tortie (grey and peach), and a male orange cream spotted tabby. The kittens are \$15 each. Have been dewormed. ***** These are the first 2 kittens pictured. *****

The other mother is a Torbie (really pretty orange & black but in striped agouti pattern). SHE IS FREE TO GOOD HOME. Really good mouser.

Her kittens are a Torbie female kitten just like her, and a male black/white. The father to these kittens was very big and had large ears. Most likely at least part Maine Coon. The kittens are \$15 each. And they have been dewormed. ***** These are the last 2 kittens.
