

Summer Tutoring Academic Help (Upper East Side)

Location **New York**
<https://www.genclassifieds.com/x-502643-z>

Let me help your child reach his or her true potential! Summer tutoring can bridge learning gaps and push children ahead for the next year.

I'm an experienced UES independent school teacher available for private tutoring in-home or at public venue. I'm professional and effective, but also half-silly and fun (especially for reluctant kiddos).

I provide:

- Reading: instruction, support, and extension as well as skills practice and strategy intervention.
- Writing: skills practice, support, and remediation for expository writing, narratives, and fiction.
- Phonics: practice for improved word recognition and fluency.
- Mathematics: number sense, conceptualization, and computational fluency.
- Critical analysis of literature and literary essay support.

My work is individualized, targeted attention for your child's unique needs. I plan each session thoroughly and always keep you updated. You will see clear, tangible results, and your kid will feel motivated and empowered.

Sliding fee scale.
