

Wicker and quarter sawn oak lamp table signed by Karpen (60 USD)

We are moving out of state next week so this won't be available for long.
 This is a very nice wicker lamp table made by Karpen. It's in very nice shape and the wicker is nice and solid and retains the original finish.
 This lamp table has a quarter sawn oak top. There are a couple of patches to the veneer on the top. But they are hardly noticeable.
 This is a wonderful quality piece by a respected furniture maker (Karpen) from the arts & crafts period.
 Thanks for
