

1978 Dodge 4X4 Auto tranny and t (, USD)

Location North Dakota
<https://www.genclassifieds.com/x-502699-z>

Just what the ad says. dirty cheap first 250, low miles on the the rebuilt tranny, I might still have drive shafts laying around, (front one was new) also front and rear diffs, 250 each, or 400 for the pair to go. Engine was a 360ci. Sorry the tranny and transfer case are now sold but still have the front and rear axles ,,,,and looking to downsize so our building is for sale with or without dealers lic and with or without tow vehicles and tow business. Trucks 2004 and 97 with towing business and or dealers lic, split/combine. We are on the state patrol call list as well as OT and Wilkin Co. Only Towing business in Rothsay, 14 miles either way on I-94 to next one. The building is about 60x80, mechanic shop in back, office etc.. up front. sell 2l8 2O5
